2018 BICSI Fall Conference & Exhibition

Bicsi

University of Florida Overview

- **TOP 10 Public University**
- **LARGE:**
 - Student Total Enrollment = 55,800
 - Faculty and Staff = 15,035
 - 2,000 Acres
 - +1,000 Buildings
- **SMART:**
 - Average SAT: 1350
 - Average ACT: 30
- **RESEARCH FOCUSED:**
 - \$838 Million in Awards
 - Gatorade, Sentricon
 - Sid Martin Biotech Incubator

UF Information Technology Overview

UFIT – Information & Communication Technology

UFIT
ICT

Core Network, Wireless, FLR, WAN, VPN, Campus Research Network

Network Infrastructure: Field Engineers and Techs – Building network support

Unified Communications: VoIP Infrastructure, Cisco Call Managers, IP Contact Center

Emergency Communications: InformaCast, Blue Lights, E911

Engineering: Design reviews, Telecom standards

ISP: Inside Plant Cabling

OSP: Outside Plant Fiber

Annual minutes, messages and megabytes of wireless traffic (Billions of MOUs/Messages/MB)

The Mix of Minutes, Messages and MBs Changes – Data Dominates

With more than 400 million mobile devices in service, that means there are 1.2 wireless devices for each American.

In addition to 15.7 trillion MBs of mobile data, U.S. wireless networks carried more than 2.2 trillion voice minutes and 1.5 trillion text messages.

2018 BICSI Fall Conference & Exhibition

Just how important has mobile become to us? More and more Americans are saying they would choose their mobile phone over other popular products or activities.

GIVEN THE CHOICE, AMERICANS WOULD CHOOSE:

2018 Final Four – San Antonio

“...for the Alamodome, there were 12,500 unique connections to the Wi-Fi during the Final Four semifinal games and another 12,300 connections during the championship game.

On the DAS side of things, AT&T reported 2 terabytes of data used on their network during the semifinals, and another 1.1 TB used during the final game.”

Villanova 79-62 victory over Michigan
67,831 in attendance

Where We Left Off.....February 2014

- Stadium DAS Installation Completed
- UFHealth Buildings: In Building DAS Installation in Process
- Campus ODAS planning
- East Campus Office Building planning

2018 BICSI Fall Conference & Exhibition

Bicsi

What's been done...UFHealth Buildings (iDAS)

- Shands Medical Plaza
- Health Professions / Nursing & Pharmacy
- Shands General Services Bldg.
- Human Development Building
- Academic Research Building
- Stetson Medical Sciences
- Bio Medical Building
- Dental Science Building
- McKnight Brain Institute
- Communicore Building
- Shands@UF Main Building
- Shands Cancer Hospital

3.8 Million Square Feet

What's been done.....Stadium

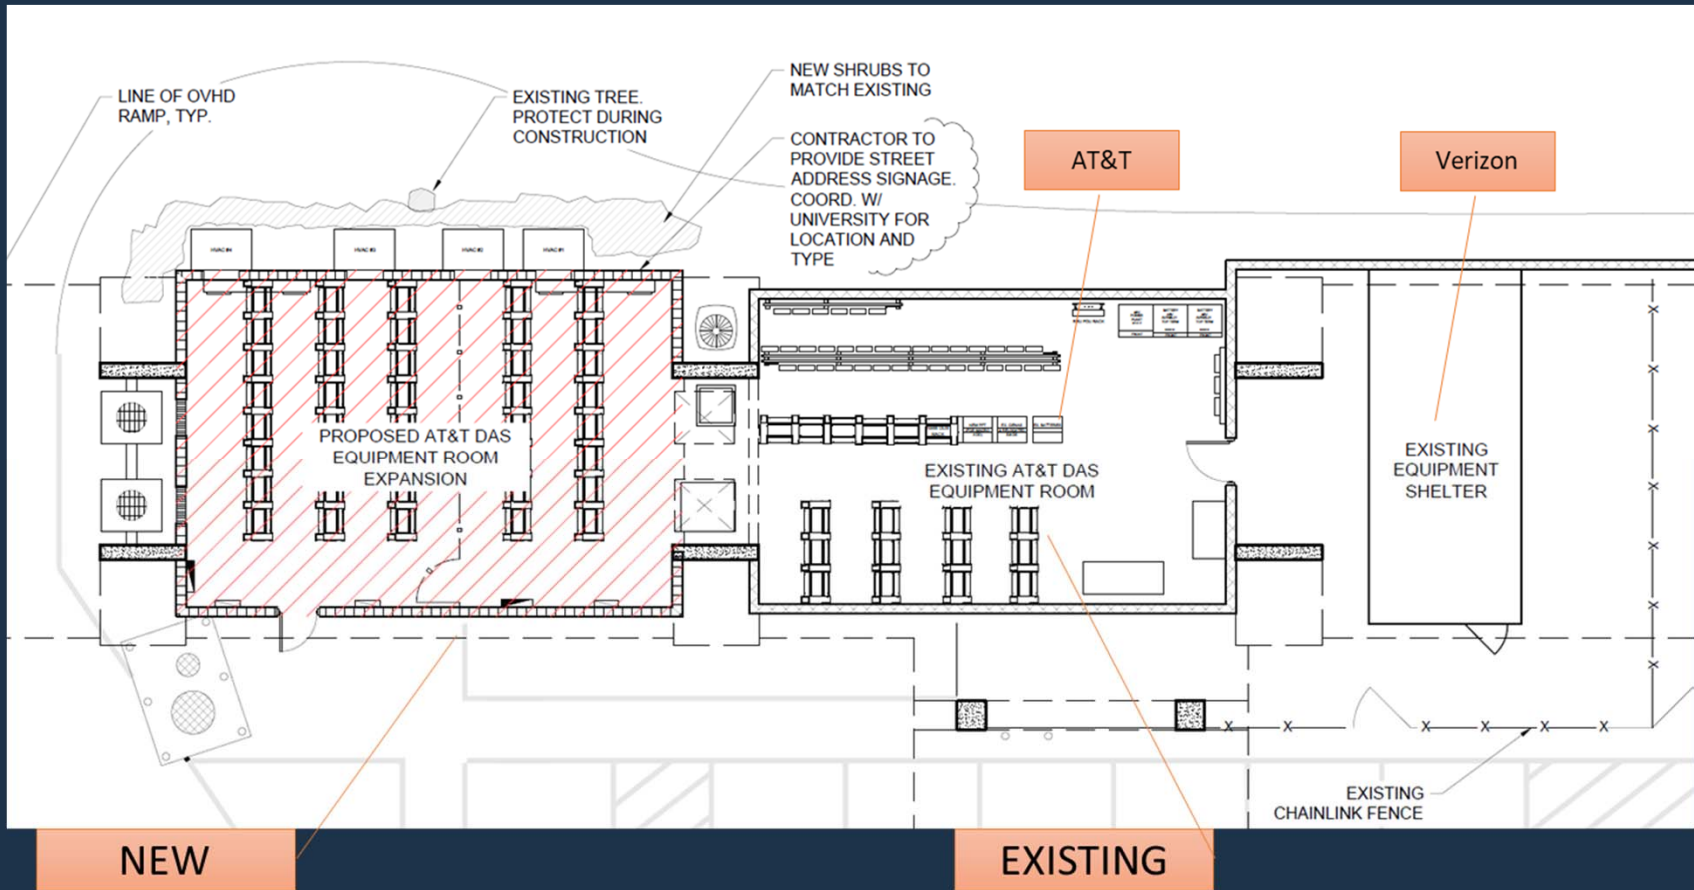

- Ben Hill Griffin Stadium
 - Increased capacity: from 20 Sectors to 30
 - Expanded Equipment Shelter Building
 - Relocated Macro Antennas
 - Flag Pole Antennas Added
 - “Rip and Replace” – twice: upgraded RF electronics, added carriers (capacity) and additional backhaul

2018 BICSI Fall Conference & Exhibition

What's been done....Campus ODAS Build

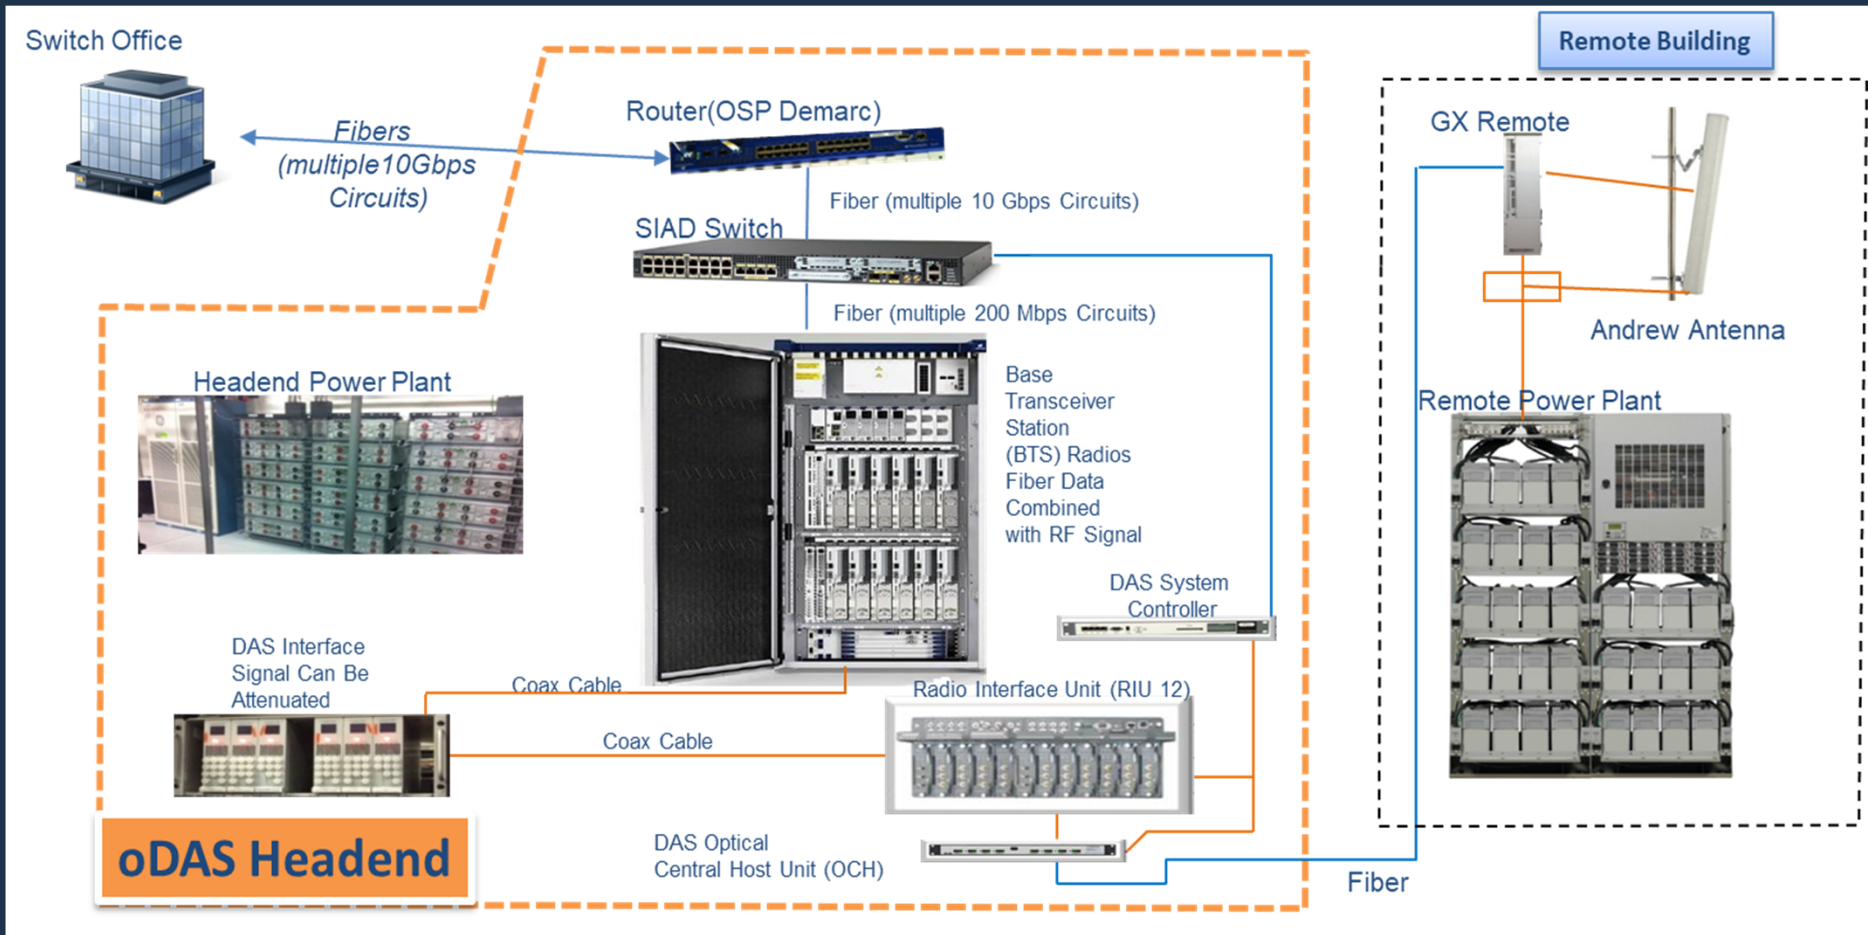

- Building Nodes
 - Stealthing
 - Power and more power
 - Antenna Placement
 - All on-air
- Fiber
 - Lots of it
 - Angle polished connectors
- ODAS Building
 - Did I mention power?

What are these?

From: "Reynolds,Curtis A" <[\[redacted\]](#)>
Date: January 15, 2016 at 12:05:56 PM EST
To: "Eldayrie,Elias G" <[\[redacted\]](#)>
Cc: "Lane,Charles Eugene" <[\[redacted\]](#)>, "Dougnac,Carlos" <[\[redacted\]](#)>
Subject: FW: What are these???

Elias,
Please note the email below and the attached pictures with expressions of concern regarding the structures being placed on campus buildings. The architectural integrity of the campus shouldn't be compromised...questions are being raised from campus Deans and other Committees. Is it possible, we can meet at your earliest to discuss options and gain an understanding of the overall plan.

ODAS Headend Equipment Building

Challenges Included:

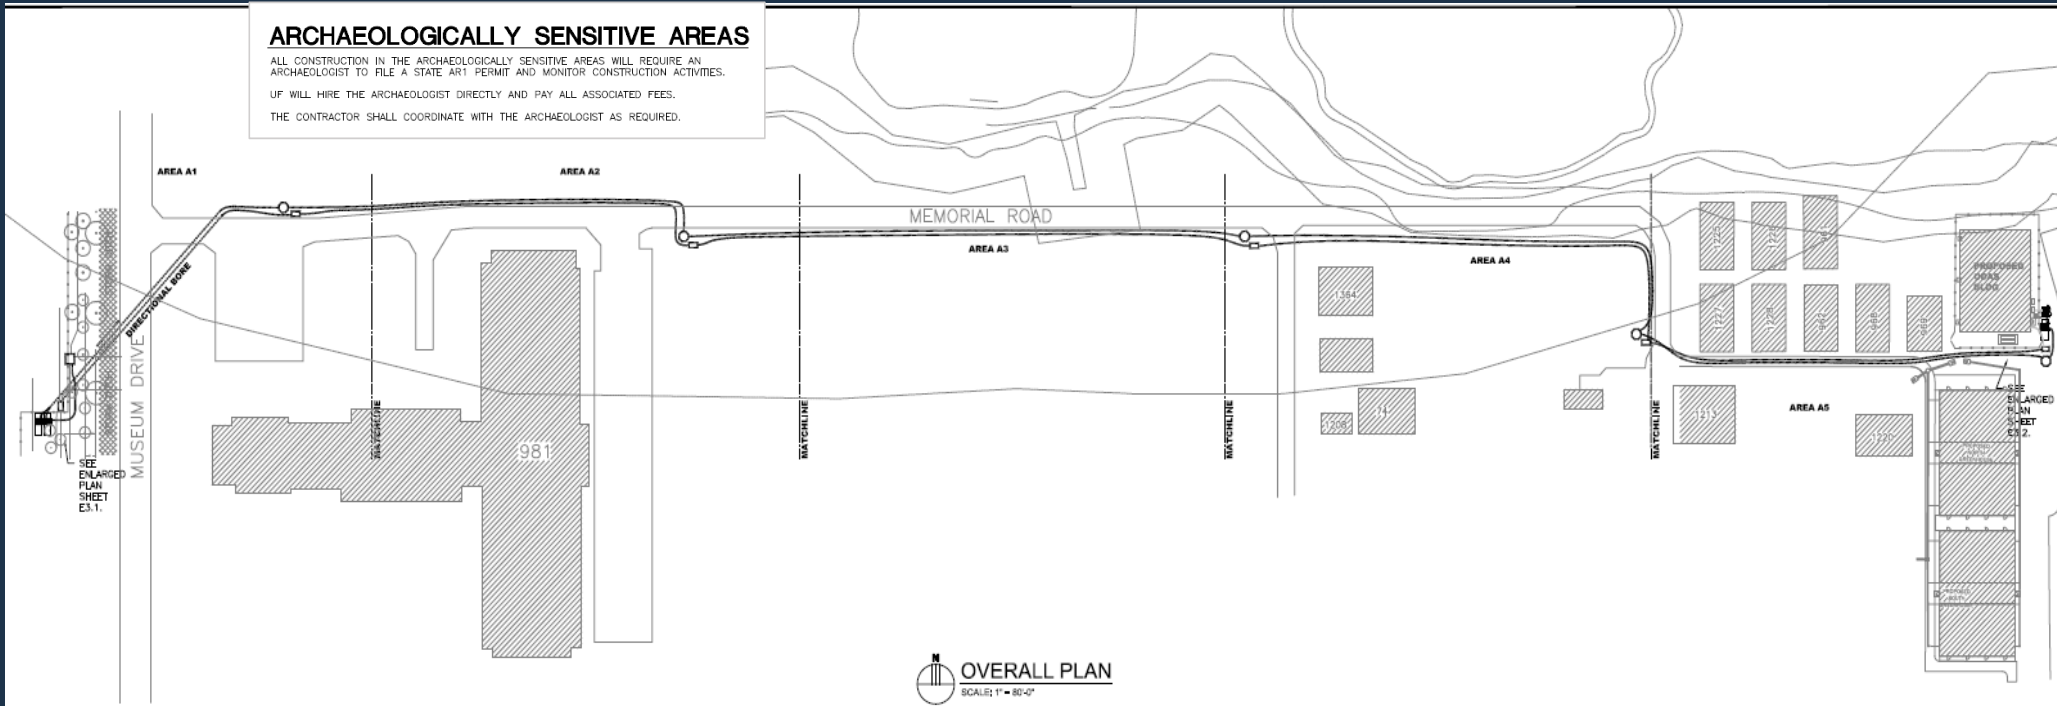

- Location: Site Changed
- Power: Lots – None there, provided by UF – who pays?
- Time: Approvals / Permits / Restroom?

ODAS Headend Power

ARCHAEOLOGICALLY SENSITIVE AREAS

ALL CONSTRUCTION IN THE ARCHAEOLOGICALLY SENSITIVE AREAS WILL REQUIRE AN ARCHAEOLOGIST TO FILE A STATE AR1 PERMIT AND MONITOR CONSTRUCTION ACTIVITIES. UF WILL HIRE THE ARCHAEOLOGIST DIRECTLY AND PAY ALL ASSOCIATED FEES. THE CONTRACTOR SHALL COORDINATE WITH THE ARCHAEOLOGIST AS REQUIRED.

OVERALL PLAN
SCALE: 1" = 80'-0"

Power: \$1.5M funded by UFIT (reimbursed by DAS Project); New underground duct banks; 15KV Switches (Transformers) – Two Circuits, Compressed Schedule

Archaeological Sensitive Area: Possible Indian Burial Mound
